Dear Steve & David,

Here is a little money to keep us all going for another year.

Steve, thank you for giving my name to the Rocky people - I've done the paper work - so it's up to them. You might be interested to know that your comment to me about my work - that you liked it but when the images flow - a non literary approach fits with my vision of what I'm going to do with most of my new work (already shot & not edited).

It was good to see you when I was up in S.F.

Love,

Chick
